Subject: Request for Waiver to allow for BEAR form submission

FY: 2014-15
BEN: 132875
FRN: 2699967
471 #: 989479

I am writing today to request that the FCC grant Waukesha School District (BEN # 132875) a waiver of the invoicing deadline, to allow the district to file for an extension and submit a BEAR form past the deadline of 10/28/2015.

The district was aware of the 10/28/2015 filing deadline but was under the impression that SPI discounting was occurring on bills from the provider. After reviewing the bills it was apparent that the provider was not applying discounts to the bills. The district then attempted to submit a BEAR form and was denied as it was past the filing deadline. A subsequent attempt to file an extension was also denied and we were directed to submit this request.

The amount of the FR was \$18,606.58 which makes up a significant portion of our telecommunications budget. It would very unfortunate to lose this funding due to a clerical error and miscommunication with the provider. On behalf of the Waukesha School District I would most grateful if considered this request.
